

Power Kit

PERFORMANCE

Maximum Speed : 20 mph on 26/700 and 16 mph on 20" wheel

Range: 20 - 25 miles per charge

Weight: Motor wheel 12 lb. Throttle & controller 1 lb. Battery 7 lb.
Charger 2 lb.

ELECTRIC SYSTEM

Motor: 350 W Brushless DC front hub with planetary gears

Controller: PWM microprocessor controller and LED self-diagnostic system. Twist grip throttle. 20 A overload protection. 31.5 V low voltage protection.

Battery: 37V 10Ah Lithium Ion (LiMnO) battery

Charger: 2 A smart. Charge time up to 5 hour

BODY

Wheel: 20," 26" or 700c

Rim: Aluminum alloy twin wall and CNC side wall

Spokes: 13g Stainless steel
